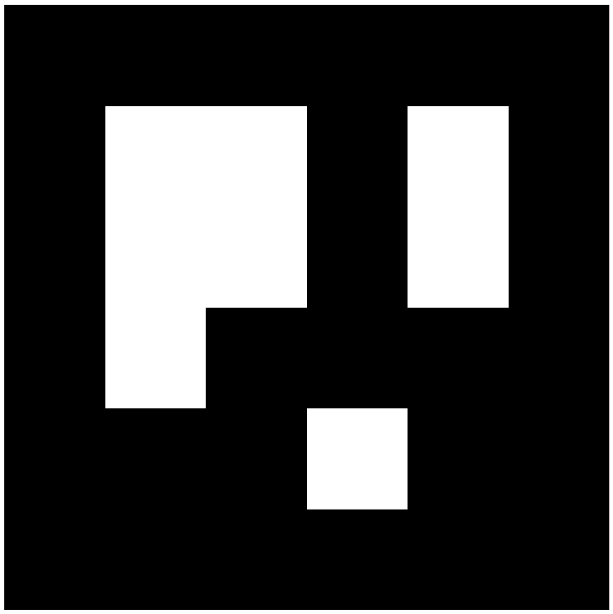
ArUco marker id 23 - DICT_4X4_50 - black square 80 mm

Print at 100 % (actual size, no 'fit to page'). Check the scale bar below with a ruler.



= 50 mm

Fix it flat on the bay's back wall, centre of the black square at the height of the camera lens,
on the centre line of the bay, facing the car. Matt paper or matt laminate (no gloss: reflections hide it).
Keep the black square exactly 80 mm: pi/camera.json marker_size_m = 0.08. If you print another size, change that number.
